# Welcome!

Cache Valley is Utah's hidden treasure. It's a land of dairy farms, small towns, stunning mountains, modest cities, friendly people, higher education and internationally renowned live arts performances.

Come discover your own adventure. There's so much to do. Our majestic mountains provide outstanding all-season outdoor recreation. Utah State University generates intellectual stimulus and the fervor of major college athletics. The American West Heritage Center lets you step back in time with costumed interpreters in 160 acres of living history. The stage of the Utah Festival Opera and Musical Theatre glows with world-class performances. There are numerous dining, lodging and shopping offerings. The qualities of the Valley are at the same time unique and familiar, natural and exceptional.

Come, let us show you what we mean—  
what we treasure.

*Pronounced "cash"*

Cache Valley was named by fur trappers who stored their beaver pelts in the area. The word *cache* is French and means to hide or store one's treasures.

### Birdwatching

This region is known for many species of birds that make Cache Valley home. Our unique geography means you can see shorebirds and mountain species all within a 20-minute drive. We're nestled between the Brigham City and Bear Lake Bird Refuges. Here, you'll spot birds along the Bear River, directly west of Logan. In spring and summer, Cutler Marsh offers viewing in classic wetland habitat. White pelicans, great blue herons, common egrets, western grebes, plus a variety of ducks, geese and shorebirds may be seen from roadways or you can rent a canoe or kayak for a close-up experience. The number and diversity of marsh birds is spectacular. In early autumn, visit the north end of the Wellsville Mountain wilderness to watch the annual raptor migration. Northern harriers, kestrels, goshawks, red-tailed hawks, golden eagles and other species float by, lifted by canyon updrafts that ease their relentless flight south.

## Rock Climbing

Many climbers make a pilgrimage to Logan Canyon for the abundant vertical and overhanging limestone and quartzite faces and for the steepness and quality of rock. With cliffs primarily facing north and south, climbers can choose sun or shade. Mild weather, low humidity and little rain offer excellent climbing opportunities during spring, summer and fall. More than 275 routes have been developed and approximately 230 are bolt-protected sport climbs. The remaining routes require placing natural protection. Most climbs are in the 5.10 to 5.12 range. Climbers must be respectful of restrictions designed to protect five sensitive plant species including Maguire's Primrose, a flower found only in Logan Canyon.

### BEAR LAKE BEAUTY

One glimpse of Bear Lake and you'll know why it's known as the Caribbean of the Rockies. Its intense turquoise water spans 20 miles long and 8 miles wide and you won't find better boating, sailing, water-skiing, jet-skiing, or wakeboarding anywhere. Don't miss Minnetonka Cave—a fascinating 9-room cave of stalactites, stalagmites, and banded travertine. The Bear Lake National Wildlife Refuge is located on the north shore of Bear Lake. Just north of Bear Lake, the town of Montpelier, Idaho, is the home of the National Oregon/California Trail Center, an excellent living history attraction where a wagonmaster will take you on a journey you'll never forget. ## SODA SPRINGS AND CHESTERFIELD GHOST TOWN

Drive north through Cache Valley's beautiful pastoral landscapes and into Idaho on the Pioneer Historic Byway. You'll visit Franklin, the oldest town in Idaho; Preston, home of Napoleon Dynamite and location of the tragic Bear River Massacre, where US soldiers killed more than 400 sleeping Shoshone villagers in 1863; and on to Soda Springs, a rough and rowdy mining town whose geothermal activity made it a well-known stop on the Oregon/California Trail. Swing in to the historic Enders Hotel and Restaurant with its eclectic museum, and bring a cup so you can taste the naturally carbonated soda water at Hooper or Octagon Spring. Twenty-five miles north of Soda Springs is the ghost town of Chesterfield. Its red brick buildings were built between 1884 and 1904. Museum and guided tours available in summer.
